

Wealth Management Online (“WM Online”) Privacy Statement

Deutsche Securities Saudi Arabia LLC (DSSA) recognizes the importance of protecting the privacy of the personal information which has been transmitted to us. We believe that the confidentiality and protection of information entrusted to us by our clients and website visitors is one of our fundamental responsibilities. We have been safeguarding our clients' privacy for decades by maintaining strict standards of security and procedures which are specially designed to prevent misuse of this information. We would like to explain some of our procedures which are intended to protect your privacy.

1. Why does DSSA collect personal data?

We collect, retain and use information about you for the purposes of better serving your financial needs and administering our business. We limit the collection and use of client information to the minimum required for delivering outstanding service to our clients, which includes advising our website visitors about our products, services and other opportunities.

2. How does DSSA collect data and how long will it be stored?

Whenever we collect personal data, our website visitors will be informed about the extent to which we collect. All personal data will normally be stored until it has fulfilled the purpose it was collected for. However, if a website visitor wants his personal data removed from our database, we will delete his personal data upon written request (subject to and in accordance with applicable laws).

DSSA is committed to the continuous improvement of our websites. We gather and analyze non-personal data regarding the use of our websites, including domain names, number of hits, pages visited, length of user session, etc., to evaluate the usefulness of our websites. These are for statistical purposes only and are not shared with any other organization outside the Deutsche Bank Group.

3. How is data saved, protected and used?

The personal information gathered will be referred to the relevant DSSA unit and will generally not be shared with any organization outside the Deutsche Bank Group but may be shared with any service provider, agent or business partner and affiliate that we work with in connection with our business. It will only be used according to the purpose as described on the respective page where the data has been collected. We reserve the right to disclose your information only in circumstances where we believe that disclosure is required under the law, to cooperate with regulators or law enforcement authorities or to protect our rights and property or otherwise in accordance with the terms and conditions for the use of WM Online and the terms and conditions governing your banking relationship with us.

Pages where we collect personal data from our website visitors are usually encrypted with your browser's internal encryption module. These pages, as well as the Internet banking system of DSSA are certified by internationally accredited certification institutions. DSSA has implemented additional, comprehensive security procedures for our Internet banking system. A firewall is deployed as a means to prevent external access to account information from DSSA's system. We also deploy multiple layers of encryption and identification to address the concern of unauthorized inquiries or interception by the transmission of client information.

If, at any time, you are not satisfied with our procedure to protect your privacy or if you have questions regarding the collecting and/or use of your personal data or regarding our privacy statement, please contact us. We will use all commercially reasonable efforts to promptly address your concern.

We reserve the right to modify this Privacy Statement at any time.
